Spring 2018

A NOTE TO OUR RESIDENTS

The Village of Jerome is a great community in which to live, work and raise a family.

As Village President, I have dedicated my term in office to the continued effort of moving forward with a financially-sound village. My top priority is ensuring an open, efficient, and responsive staff to service our residents and guests. "Our residents are our number one customer." We are pro-business and place a great deal of emphasis on being a business-friendly partner.

Safe streets and neighborhoods is another priority. Thanks to our Jerome Police Department, along with outstanding rescue and fire services provided by the City of Springfield, responsive services for the safety and welfare of our residents and guests are being provided.

A proud tradition, dating back to the mid-1990s, is the Village of Jerome Parade in celebration of Independence Day each year. This parade is a family tradition that has been attended by many generations of families.

As Village President, I am very interested in your constructive input to make our village the very best it can be. Moving forward collectively, we will continue our path to success.

Kindly contact the Village office to express your comments or request assistance at 546-2203.

Michael Lopez, Village President

What You Can Do to Control Mosquitoes

An important part of mosquito control around homes is making sure that mosquitoes don't have a place to lay their eggs. Because mosquitoes need water for two stages of their life cycle, it is important to monitor standing water sources.

- Be sure to clean out your gutters every year to prevent debris from causing standing water.
- Any containers that may create a breeding ground for mosquitoes should be eliminated. For example - old tires, buckets, plastic containers, and toys.
- Empty and change the water in bird baths, fountains, wading pools, rain barrels, and potted plant trays at least once a week to eliminate potential mosquito habitat.
- Drain temporary pools of water or fill them in with dirt.
- Keep swimming pool water treated and circulating.
- Leaky outdoor water faucets can also cause puddles in which mosquitoes can breed.
- Uncovered refuse containers and junk piles can cause water to accumulate.
- Clean up leaf litter, but don't rake it into gutters, storm drains, or the street. Doing so may cause water to stop flowing and create ponds where mosquitoes may lay eggs.

Understanding Your Water Bill

DUE DATE VS. PENALTY DATE— Please read your water bill carefully. There are two dates shown. Payment must be received by the **due date**. A penalty will be applied if payment is received on or after the **penalty date**. If you have any questions about your bill call the Water Department at 546-2203.

ESTIMATING—During inclement weather, it is sometimes necessary to estimate water usage instead of manually reading the water meters. Frigid temperatures risk freezing the water meters and lines by the opening of the pits. There may also be instances of estimating due to staffing situations.

Building Permits Required for Outdoor Projects

Building permits are required for many outdoor projects such as fences, porches, decks, room additions, garages, sheds, swimming pools, etc. Please check with the Village Office (546-2203) or Building & Zoning Trustee Dale Lael (787-8388) to see if the project you are planning requires a building permit. A project that is started before getting a permit is subject to penalties.

Building Permit Applications are available at the Village Office and on the Village website.

Hiring Work to be Done Around Your House?

Persons and companies working in Jerome must register with the Village. Home repair scams become our number one problem this time of year so be sure to check with the Village Office to see if the person or company you are thinking of hiring is registered to work here.

Disposing of TVs and Other Electronic Equipment

Illinois law prohibits the disposal of TVs and other electronic equipment in landfills. They must be recycled.

BLH Computers at 1832 Stevenson Drive accepts these items for recycling. Most items can be dropped off for free although there is a fee for TVs.

Check out their website at blhcomputers.com for a list of what can be recycled. Please do not put these items at the curb.
